Welcome to Basil Port of Call: Buffalo 2019

Thank you, Volunteers!

Few moments in life are more memorable than seeing the tall ships. You don't have to be a sailor to appreciate the masts, sails and rigging – they are as awe-inspiring as the moment of entering a cathedral for the first time. They take your breath away -- even if you have never sailed a day in your life.

Buffalo's maritime heritage is renowned, as Canalside is situated at the Western terminus of the Erie Canal, considered the "Gateway to the West". When the Erie Canal construction was completed in 1825, the continuous traffic of canal boats and Great Lakes tall ships opened the Atlantic Coast to the interior of our nation, and created tremendous growth and prosperity for our city. The tall ships that will visit Buffalo this 4th of July weekend remind us to pay homage to that remarkable history.

Bringing the tall ships to Buffalo this year is no coincidence. Buffalo is proud and excited by the opportunity to host an international fleet, and to make its long-awaited debut as an official Great Lakes Challenge® Host Port. Due to our extensive maritime history of ship and boatbuilding and our current focus around the port, the community is thrilled to see the Tall Ships come to us. The city revolves around the piers and all the amazing rewards and challenges the ocean gives us. **Thank you for sharing your free time to help make this event happen for BUFFALO!**

We could not produce this event without your help. Let's make it memorable and special for all.

**Mike Vogel, Chairman
BASIL PORT OF CALL: BUFFALO 2019**

FESTIVAL OVERVIEW

From **July 4 - 7, 2019**, the Port of Buffalo, will be just one of 11 ports to host the fleet of tall ships from Tall Ship America's TALL SHIPS CHALLENGE® Race Series Great Lakes 2019.

Basil Port of Call: Buffalo 2019 will showcase domestic and international ships, including some of the most acclaimed worldwide, including our own tall ship, *Spirit of Buffalo*.

The festival is free providing access to include access to educational workshops, entertainment and the festival grounds. Festival VIP tickets offer on-board ship tours.

While getting up close and personal with Tall Ships is likely good enough for most folks, this unique event offers up plenty more than just playing Master & Commander.

Loads of entertainment will pack the port with an eclectic taste of music that includes rock, jazz, Sea Shanty, and more! Basically, if it's a style of music, it'll be there. Educational and children's activities will also be a large part of Basil Port of Call: Buffalo 2019. Something for everyone! Original art, jewelry, children's stories, great food and more!

Of course, a festival of this magnitude would not be complete without a large selection of fantastic fare. A bevy of local options will be on hand including Buffalo's regional food trucks, and plenty of good food to go around.

Basil Port of Call: Buffalo 2019 takes place rain or shine. No ticket refunds or exchanges. Tickets are non-transferable. Your ticket does not guarantee access to all ships at all times. Prices include all applicable fees and taxes.

What is a Tall Ship?

A “Tall Ship” is not a strictly defined type of sailing craft. For most people, the term defines the Golden Age of Sail – the old-style majestic ships with square rigs. We almost always think of ships with three or more masts and many sails.

A Tall Ship can actually be on of any number of differently rigged sailing vessels. Popular modern tall ship rigs include topsail schooners, brigantines, brigs and barques. Traditional rigging may include square rigs and gaff rigs, with separate topmasts and topsails. The actual rig of a specific sailing vessel known as a Tall Ship is dependent on the number and cut of the sails as well as their alignment.

Why are the Tall Ships in Buffalo ?

The Buffalo Lighthouse Association has partnered with **Tall Ships America** to help bring the **TALL SHIPS CHALLENGE®** to the Great Lakes. Tall Ships America’s mission is to encourage character building through sail training, promote sail training to the North American public, and support education under sail. This is done in part by bringing the Tall Ships to port cities so that the general public can learn more about their programs which includes environmental science, leadership learning, and innovation.

The TALL SHIPS CHALLENGE® was created in 1998 to provide sail training exercises for young crew on board member vessels. Tall Ships America is pleased to be able to share a portion of the fleet with the visitors and guests of Basil Port of Call: Buffalo 2019.

Helpful Event Information

911 and Emergency Response

Located on-site will be First Aid tents and medical response units (ambulance). Please familiarize yourself with their locations prior to beginning shifts.

Emergency Evacuation

In the event of an emergency evacuation our security team, in cooperation with local authorities, are responsible for initiating and conducting any necessary evacuations. It is essential that this is done as smoothly as possible for the safety and security of our guests, crews, volunteers, and staff.

Emergency Response or Security Issues

Please call 814-983-2202 if you need immediate assistance or find someone who has a radio and ask them to call security.

Do not call 911 as all public safety agencies will be onsite.

NOTES:

ADA and Guests with Disabilities

Although most of these ships are historically built and historic in nature through modern replicas, the Tall Ships aim to make sure everyone can enjoy the experience. Because steps and gangways can make boarding the ships dangerous for guests with disabilities, we have made arrangements for the Zone B ships to offer dockside interpretations from 10:00 - 11:00 am on Friday, Saturday and Sunday mornings. Please ask your Team Leader, or an SLO, for assistance if your assignment requires assisting people with special needs.

Lost & Found

If you find an article, please turn it into the ticket booth closest to the location in which you found it. Please direct any patrons seeking to reclaim lost articles to the closest ticket booth and the Tent Manager will take over.

Lost Children and Lost Parents

If you find a lost child, you should immediately find the closest event staff member with a radio (any Ship Liaison Officer will have one) Please remain with the child and staff member until a uniformed Police Officer or Event Official arrives at which time you may return to your post.

Alternately, if you encounter a parent who is looking to reconnect with a lost child, please follow the same procedure. All event security guards will be wearing an event T-Shirt. Never allow a child to go with any adult unless a uniformed Police Officer or a recognized Event official is present.

Media Inquiries

If a member of the media asks you a question please escort them or direct them to the Media tent located in Zone A. **Contact Linda Schineller, Media Relations Chair, at 716-341-2939.**

Ship Protocols, Access

Just a reminder that many of our visiting ships are also homes for their crew. We ask that you do not go on board unless invited. If a member of the press would like access to one of the ships, please refer them to your Team Leader, who in turn will refer them to a Ship Liaison Officer or to a member of the Media Relations Staff.
